- The **Walt Disney World** Resort transportation system is designed to efficiently transport you to the Park destinations. When traveling between Resort properties please allow up to 1 hour to reach your destination. Some connections can be made more quickly than others. Please check with your Guest Services or Front Desk for further information.
- When traveling during high volume periods (such as after parade exits or Park closing), please be prepared for crowded conditions at the stops and the need to have people stand on the buses.
- Please be aware that safety regulations require that strollers be folded and kept out of the aisles when a bus is in motion. Please remove children from strollers prior to boarding the bus.
- The normal interval between buses is approximately 20 minutes. During peak travel times this interval may be reduced in order to meet capacity needs. (The interval between Disney's Blizzard Beach buses maybe as long as 35 minutes. Please check with your Guest Services or Front Desk for these schedules.)
- Please board buses only through the front doors. The rear doors will close as soon as departing Guests have exited the bus.
- If you are carrying food or drink, please make sure that the containers are sealed prior to boarding.
- Some seats on the buses are marked for Guests with disabilities. It may be necessary to move Guests from these seats to accommodate the Guests with disabilities.

Information For Guests With Disabilities
 Most buses are equipped with wheelchair lift mechanisms at the rear door. These buses can be identified by a blue emblem on the front bumper and rear door. Guests in wheelchairs should wait at the rear door for assistance.
